- Kokomo is located in the region of Kadavu, directly South of Suva and South East of Nadi.

- For the best arrival experience, we would recommend guests separate their arrival to Nadi (e.g. 20 people at 7am, 20 people at 11am, 20 people at 3pm), with no more than 60 guests arriving on the same day.

7. Are there all-inclusive banquet menus and extra charge menus?

- Every event at Kokomo is unique and every menu handcrafted.
- In the lead up to an event, we would work with event organisers to tailor the menus for their guests.
- Where possible, all menus will champion local seafood and freshly grown fruits and vegetables harvested from the resort's 5.5-acre farm.
- Some requests (e.g. imported caviar or Kobe beef) that we are unable to access locally, would attract an extra charge.
